

K-LOVE is a very important broadcaster in our community. This radio station provides hope to the people in our community. They have a very positive impact in the community. The music and news they provide to the community is family-oriented. We never have to worry about flipping this station on and hearing something we don't want our children being exposed to. They provide information of what's happening in the Christian community, opportunities in the community. The removal of K-LOVE would have a negative impact upon our community as this is the primary source of contemporary Christian music here in Oklahoma City and without this, children and adults alike would tune into other broadcasts that do not have such a strong and positive impact. I feel strongly that continuing the K-LOVE broadcasts is in the public's best interest. Please do not take away K-LOVE.
